New Comfort Solutions Center Showcases Daikin Group's Product Lines for North American HVAC Dealers

HOUSTON, Nov. 5, 2015 – HVAC dealers have been getting up close and personal with product lines consisting of residential and commercial unitary, ductless, packaged and VRV s – along with a host of other high-efficiency indoor comfort products – at Daikin's new Comfort Solutions Center, designed to invigorate the product showroom experience.

The recently opened Comfort Solutions Center (CSC) in Houston is more than just a showcase where HVAC dealers can see the latest indoor comfort products from Daikin, Goodman and Amana brand. It is also intended to highlight the innovation and energy intelligent technology that has supported Daikin's growth to become the world's largest manufacturer of HVAC systems and refrigerants.

"The idea is to generate excitement among HVAC dealers about the future of energy-efficient indoor comfort solutions from the Daikin, Goodman and Amana brands," explains Nathan Walker, Vice President of Marketing for Goodman Manufacturing. "The response from visiting HVAC dealers, to date, has been very positive."

"It's more than a product showroom," says Walker. "It's a brand experience about designing time tested and innovative indoor comfort solutions, not just for homeowners, but also for HVAC dealers. Our hope is that a visit to our CSC becomes an inspirational experience that HVAC dealers can share with their customers."

Comfort Solution Center tours are available by invitation only from an authorized Independent Distributor of Daikin, Goodman or Amana brand products or from a Daikin company-operated distribution location.

###

About Daikin

Daikin Industries, Ltd. (DIL) is a Fortune 1000 company with more than 50,000 employees worldwide, and is recognized as the largest HVAC manufacturer in the world. Daikin North America LLC (DNA) is a subsidiary of DIL. DNA and its affiliates manufacture heating and cooling systems for residential, commercial and industrial use and are sold via a select group of independent HVAC contractors. DIL manufacturing operations include facilities at Houston, TX, Fayetteville, TN, and Dayton, TN. For additional information, visit www.daikincomfort.com.

About Goodman

A member of the DAIKIN group, Houston-based Goodman Global Group, Inc. is a leading manufacturer of heating, ventilation and air conditioning products for residential and light commercial use. Goodman's products are predominantly sold through company-operated and independent distribution networks, with more than 1,000 total distribution points throughout North America. Goodman factories are ISO 14001:2004 accredited, an international certification that recognizes manufacturing processes and policies that are sustainable. For more information, visit www.goodmanmfg.com.

History of the Amana® Brand

Established in 1934, the Amana® brand has a history of designing innovative cooking, dish, laundry and refrigeration household appliances. With its introduction of the original countertop microwave in 1967, Amana was put on the map as a brand dedicated to bringing convenience to consumers' lives. For more information on Amana brand heating and cooling systems, visit www.amana-hac.com.
