

DAIKIN PACKAGED UNITS

ENERGY-EFFICIENT / HIGH EFFICIENCY
UP TO 15.2 SEER2, UP TO 6.7 HSPF2

Today, the air is perfect. Perfect temperature. Perfect humidity. Perfectly clean and fresh, like just after a rainstorm. And the only thing more perfect than this outdoor scenario is that it's all happening inside. Because that's where we work. That's where we play, where we sleep, where we truly live.

And that's why at Daikin, we aim to make the air inside as refreshing as the outside. Better comfort. Better control and efficiency. Better quality. So you can create your own unique ecosystem. And everyday is perfect.

Inside and out.

A GLOBAL LEADER IN HVAC INVESTED IN NORTH AMERICA

Daikin is a global leader of indoor comfort solutions with millions of systems installed throughout the world. Daikin has been improving the comfort of its customers with exceptional products and services for many generations. As a company whose core business is that of heating and cooling homes and buildings, Daikin takes particular focus on the air you live in.

Air is essential to our existence and Daikin's role and responsibility in protecting it continues to expand. Daikin is devoted, with unbridled passion, to overcoming the ever-evolving challenges of the air around us. Leveraging our leading, cutting edge technologies with a holistic focus on performance, reliability, design, aesthetics, air environment, ease of use and efficiency, we create outstanding products and system solutions to realize a comfortable and

sustainable living environment for all people and all regions of the world.

This is *Perfecting The Air We Share*, and this is what Daikin is all about.

The opportunity to experience Daikin's advanced technologies and solutions is now more accessible than ever before. Cementing our corporate mission of being "globally-local", many of the Daikin solutions for residential applications are designed and manufactured at our state of the art production facility on the outskirts of Houston, TX. The Daikin Texas Technology Park is a sprawling campus covering more than 4 million sq. ft. with more than 4,000+ personnel. The facility practices Daikin's philosophy of a full 360 degree focus to research and development, manufacturing quality and reliability, robust sales networks and extensive support infrastructure.

DAIKIN INTRODUCTION
VIDEO ON YOUTUBE!

<https://youtu.be/dGVkDFAc4-M>

Daikin prides itself on its specialized focus to heating and cooling and extends this pride to a meticulous commitment to the design, operation, performance and reliability of all its systems and solutions, including the key components inside those systems. Daikin designs and manufactures many of the components that make up our systems — including the heat exchangers, coils, sheet metal parts, fan blades, and the heart of the system — the Inverter-driven, variable-speed compressor*.

Efficient and dependable compressors for worry-free comfort

Daikin's variable-speed Inverter compressor* technology is currently providing energy efficient indoor comfort with over 50 million units installed worldwide. This proven technology automatically adjusts the performance of the system's compressor to match the demand needed to achieve the temperature you have selected on the thermostat. It is like having cruise control for your home's indoor comfort. Precise adjustments are being made automatically with the goal of providing the most consistent comfort at the lowest possible level of energy consumption. Compare this to a single speed compressor and immediately you'll see the benefits of the Inverter technology compressor. Daikin designs, engineers, and manufactures its own variable-speed Inverter compressors. Rest assured that you are getting a proven design — you are getting Daikin Inside.

* Inverter-driven, variable-speed compressor is not currently available for the Daikin package product line.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin portfolio of solutions is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step further by considering a state of the art Daikin brand, energy-efficient system. We have designed and engineered all of our products to provide years of consistent indoor comfort — delivering you and your family the type of comfort you never thought possible.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that use energy resources more effectively. Select a packaged air conditioner if only cooling is needed. Select a packaged heat pump if you desire both cooling and heating. Select a packaged gas/electric or dual fuel model if you need extra performance during the colder months. For replacement or new construction, a Daikin packaged system will provide efficient comfort to your family for years.

COMFORT-ENHANCING FEATURES THAT HELP DELIVER BETTER COMFORT

PACKAGE HEAT PUMPS – UP TO 15.2 SEER2, UP TO 6.7 HSPF2 PERFORMANCE

DP5HH / DP5HM / DP3HH / DP3HM

- 1 Energy-efficient scroll compressor** provides reliable cooling for lower energy bills compared to lower SEER2 units.
- 2 Refrigeration-grade premium copper tubing** and aluminum fin condenser coil configuration delivers outstanding heat transfer properties with R-410A refrigerant.
- 3 Heavy-gauge galvanized steel** enclosure with powder-paint finish protects your system from outdoor elements.

Multi-position heat pump shown

- 4 Fully-insulated blower compartment** with convenient access panels.
- 5 Quiet operation** – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

PACKAGE AIR CONDITIONER – UP TO 13.4 SEER2 PERFORMANCE

DP3CH

- 1 Energy-efficient scroll compressor** provides reliable cooling for lower energy bills compared to lower SEER2 units.
- 2 Refrigeration-grade premium copper tubing** and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.
- 3 Heavy-gauge galvanized steel** enclosure with powder-paint finish protects your system from outdoor elements.
- 4 Fully-insulated blower compartment** with convenient access panels.
- 5 Quiet operation** – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

PACKAGE GAS/ELECTRIC UNITS – UP TO 15.2 SEER2, 81% AFUE PERFORMANCE

DP5GM / DP5UM / DP3GM / DP3UM

Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.

Heavy-gauge galvanized steel enclosure with powder-paint finish protects your system from outdoor elements.

Fully-insulated blower compartment with convenient access panels.

Quiet operation – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

Tubular stainless steel heat exchanger for outstanding durability and heat transfer.

PACKAGE DUAL FUEL UNITS – 13.4 SEER2, 81% AFUE PERFORMANCE

DP3DM

Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.

Heavy-gauge galvanized steel enclosure with powder-paint finish protects your system from outdoor elements.

Energy-efficient scroll compressor provides up to 13.4 SEER2 cooling and up to 6.7 HSPF2 heating performance for lower energy bills compared to lower SEER2 rated units.

Gas heat section provides additional heating capacity with up to 81% AFUE.

Fully-insulated blower compartment with convenient access panels

Quiet operation – Acoustically engineered sound control blanket helps reduce noise levels compared to units without sound blankets.

Tubular stainless steel heat exchanger for outstanding durability and heat transfer.

PRODUCTS ARE NOTHING WITHOUT
THE BEST CONTRACTORS TO SUPPORT
THEM LOCALLY

"I'm a Daikin *Comfort Pro*"

Those five simple words can offer you comfort like you've never experienced. The words mean that the contractor you invited into your home is a highly-qualified and continuously-trained professional who will quickly, efficiently and effectively help to solve any of your indoor comfort needs.

All Daikin *Comfort Pro* contractors seek to achieve the highest levels of customer service, business integrity, and technical competency. These range from maintaining an excellent rating with their local Better Business Bureau (BBB) to taking continuing education classes on how best to install and service Daikin brand products. To retain this status, Daikin *Comfort Pros* must deliver their best abilities to each and every customer, year after year.

A commitment to your comfort

Daikin *Comfort Pros* believe that a well-informed homeowner is the best possible customer. All *Comfort Pros* will take the time to help understand your unique comfort needs, assess the performance of your current indoor comfort system, and thoroughly discuss all options with you.

A commitment to provide you the right service and products

Daikin *Comfort Pros* have access to one of the most complete lines of indoor comfort products and systems available. As the world's leading manufacturer of HVAC, Daikin offers you a full line of comfort solutions that ensures that a Daikin *Comfort Pro* can provide the perfect solution to your home.

A commitment to serve you over the long term

Daikin *Comfort Pros* want to earn your business. They want to be your long-term provider for all your indoor comfort needs. To help deliver on this commitment, you can take peace of mind with the limited warranty* coverage offered on your Daikin brand indoor comfort product or system. The Daikin *Comfort Pro* has access to one of the best limited warranty* programs in the indoor comfort industry.

*Complete warranty details available from your local dealer/contractor or at www.daikincomfort.com.

Ultimately, the commitment to provide you with *Air Intelligence* is represented and reinforced in the Daikin Comfort Promise.

If, for any reason, the Daikin *Comfort Pro* has not met your expectations within one year of your equipment or system installation, please contact the installing Daikin *Comfort Pro* and ask them to honor the Daikin *Comfort Pro*. The Daikin *Comfort Pro* will return to your house to resolve any issues that you have with your installation at no cost to you.

As part of formally maintaining the Daikin *Comfort Pro* distinction, the Daikin *Comfort Pro* will make all reasonable efforts to resolve any concerns you have within one year of your equipment installation. If a Daikin *Comfort Pro* does not

meet your expectations, they risk losing the ability to sell Daikin products.

With the Daikin *Comfort Pro*, you can have peace of mind that your Daikin *Comfort Pro* will continue to earn your business well after the sale. If not, they cannot be a Daikin Certified *Comfort Pro*. Period.

AsureSM

EXTENDED SERVICE PLAN

Daikin understands that you expect to enjoy years of uninterrupted service from your home comfort system. By including an AsureSM Extended Service Plan you can have peace of mind knowing that in the event of an equipment failure, Daikin will pick up the cost of the repair. For only pennies a day, you can be protected from the unplanned cost of a service call and from the increasing cost of service over the life of your equipment.

- » No unexpected repair bills
- » Prompt service provided by an authorized AsureSM contractor
- » All repairs performed with Daikin brand replacement parts
- » No pre-authorization required
- » No out-of-pocket deductible

These benefits mean that you can count on staying cool in the summer and warm in the winter — an AFFORDABLE benefit that adds VALUE over the life of your home comfort product.

Contact your local Daikin sales representative or local contractor for more information on current extended service plans that are available to you.

Here's a Review from One of Our Most Important Critics:

"We had a 14-year old packaged unit that we recently replaced with a Daikin. The difference is amazing. Our old AC was on all day trying to keep the house cool from the Florida summer. The Daikin is much more efficient, and allows us to stay cooler while running for less time (and far more efficiently!)"

– Toni B
