WARNINGS

- Working with all refrigerants involves a degree of liability. It is recommended to use best practices and always adhere to safety protocols before, during, and when working with any refrigerants.
- DO NOT MIX REFRIGERANTS
- Per current US EPA SNAP approvals, A2L refrigerants can only be used in new equipment and CANNOT be used to retrofit a different refrigerant into an existing system. Always use the same refrigerant marked on the nameplate.
- Codes are rapidly changing and allowing A2L refrigerants throughout North America. Check with your local Daikin Comfort Technologies Distributor for latest product availability information.
