

AIR HANDLERS

NEW R-32 MODELS

ENGINEERED WITH INNOVATION

If your outside HVAC unit was installed before 2006, you should consider replacing your unit. There is a good chance it is on borrowed time and potentially **costing you in high energy bills**. Your air handler is the indoor portion that circulates the cooled air in the summer and heated air in the winter — **quietly and economically**. Your local **Daikin Pro** will help you find the best match for your system!
