Intuitive control with a premium design

Daikin is pleased to introduce the *Madoka* remote controller for the North American *VRV, SkyAir*, and Single and Multi-zone systems. The *Madoka* features a sleek and stylish design with an intuitive interface including touch button control. It retains advanced functions for indoor unit control. It can be commissioned and managed with ease through a Bluetooth® configuration app or via the onboard menus. The *Madoka* provides 3 configurable display modes: Text (default), Icon, and Scale to help meet project and occupant needs.

Features

» Easy commissioning and management with Bluetooth® app
  – Leveled user authority for owner/administrator and installer
  – QR code (stored locally) required to access the installer menu to prevent unauthorized access
  – Settings can be saved and sent to multiple controllers
  – Set up multiple settings at once

» Sleek and stylish design

» Simple and intuitive interface with advanced function options (see setting options listed in the table on page 2)

» Selectable display mode:
  – Text mode, icon mode, and scale mode

Award-winning design. Madoka earned an IF design award and Red Dot Product Design Award for its innovative design.

On/Off Button.

LED light emits a soft emotive blue glow when in operation (configurable), and blinks red when in error.

Simple and Intuitive interface with touch button control.

Cool 72 °F

**Text Display**   **Icon Display**   **Scale Display**

The scale display modes display a +/-3°F adjustment from the center reference. Removes occupant perceived feeling of comfort level based upon current room temperature and setpoint and helps to provide energy savings.

With the *Madoka* Quick Set app, advanced function settings and commissioning can be easily done through a Bluetooth® connection
Madoka Quick Set App
Available for download on iOS* and *Android* devices.
