

DAIKIN FAQ SERIES HEATING AND COOLING SYSTEMS

INDOOR WALL-MOUNTED UNITS
Up to 17.3 SEER2 / Up to 7.8 HSPF2 / Up to 11.9 EER2
INVERTER (VARIABLE-SPEED) COMPRESSOR

Comfort

We offer a wide range of products, and always provide you with the ideal solution, whether for an apartment, condo or a house. Our units are whisper quiet and, with their specially designed airflow pattern, they create your ideal indoor climate.

Daikin units are designed to include features that let you create your own unique ecosystem. From the wide-angle louver design to the auto-swing and comfortable mode controller settings, effective heating and cooling is ensured throughout the space.

Smart inverter technology

 Integrated with an inverter (variable-speed) compressor, Daikin systems deliver the capacity required to maintain desired room conditions, typically reducing energy consumption by up to 30% or more (compared to traditional fixed-speed ducted systems). This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

Energy efficiency

Our products are designed to be highly efficient all year round, and their low energy consumption is reflected in low energy bills for you.

Flexibility

With space saving design, wide operation range and long pipe lengths you have maximum flexibility in your design to suit your needs.

Reliability

Daikin products are renowned for their reliability. And you can rely on service to match, with industry leading warranties.*

* Complete warranty details available from your local dealer or at www.daikincomfort.com. The duration of warranty coverages in Texas differs in some cases.

FAQ Series

Expertise and innovation

Daikin's FAQ wall mount *SkyAir* systems feature streamlined indoor units in both cooling only and heat pump models. Sleek and sophisticated in appearance, these indoor units feature automated louvers and distribute airflow throughout the space equally and efficiently to deliver absolute comfort.

Premium comfort features:

- » Energy Efficient – up to 17.3 SEER2, up to 7.8 HSPF2, up to 11.9 EER2 – Inverter (variable-speed) compressor
- » Cooling Range 23° - 122°F DB (-5° - 50°C DB)
 - Low-Ambient cooling operation down to 0°F DB (-17.7°C DB) (with optional Air Adjustment Grille(s))
- » Heating Range -4° - 60°F WB (-20° - 15.5°C WB)

Outdoor unit features:

Anti-Corrosion Treatment on Heat Exchanger

Auto-Restart – The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

Self-Diagnosis – In the event that a problem develops with the unit, malfunction codes can be displayed on the liquid crystal panel of the remote control for fast and easy fault diagnosis.

Feel the difference

Designed for absolute comfort, Daikin’s FAQ *SkyAir* units are equipped with comfort control features such as the powerful dual air flaps and the vertical auto swing function. Integrated into a high energy efficient system, the FAQ delivers absolute comfort with energy saving capabilities.

Hear the difference

Utilizing inverter technology to maintain comfort settings, Daikin systems most often operate at low speeds with indoor sound levels as low as 37 decibels (dB) and outdoor sound levels as low as 58 dB.

Sound levels as low as:

See the difference

A Daikin inverter system is designed for installation where space is limited, such as with zero lot lines, or limited to roof, wall or terrace areas. The compact and lightweight design, when compared to traditional solutions allows the Daikin inverter system to be used in homes with the strictest of limitations with relative ease.

Advanced Water-shedding drain pan

Engineered with multiple drain holes and channels providing effective water shedding.

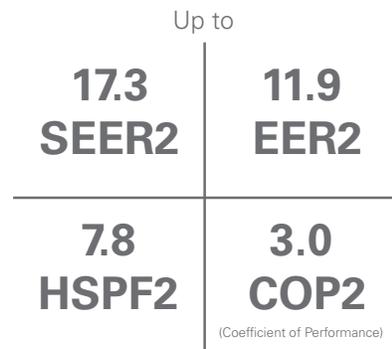

Single fan drain pan

Knowledge is power

In general, system performance is measured by a higher Seasonal Energy Efficiency Ratio (SEER2) and Energy Efficiency Ratio (EER2). Higher ratings mean lower operating costs. Similarly, a higher rated Heating Seasonal Performance Factor (HSP2F) and Coefficient of Performance (COP2) means a more efficient air-source heat pump.

Why is it important?

The COP of a heat pump is the ratio of: $COP = \frac{\text{energy out}}{\text{energy in}}$ When the COP is >1, the result is a system providing more heating energy than energy consumed. As the COP increases, the higher the efficiency — resulting in lower utility costs.

Inverter Ducted Heat Pump Efficiency ratings

You're always in control.

Individual comfort and control

Daikin systems have an available infrared remote controller allowing you to access all functions at the click of a button.

From anywhere in the world. Or your living room.

It can happen to anyone. You forgot to change the temperature of your heat pump system or air conditioner before leaving the house, or you will be delayed returning home and wish to avoid needlessly heating or cooling your home. What in the past would have resulted in wasted energy is no longer a problem. With the DKN App, you are always in control. You can use your tablet or smart-phone to access your Daikin system via the internet*.

*Requires AZAI6WSCDKA Wi-Fi adaptor.

Daikin Madoka Remote Controller

Daikin is pleased to introduce the *Madoka* remote controller for the North American FAO & *SkyAir* indoor units. The *Madoka* features a sleek and stylish design with an intuitive interface including touch button control. It retains advanced functions

for indoor unit control. It can be commissioned and managed with ease through a Bluetooth® configuration app or via the onboard menus. The *Madoka* provides 3 configurable display modes: Text (default), Icon, and Scale to help meet project and occupant needs. Learn more at www.daikinac.com.

Madoka Quick Set App
Available for download on iOS and Android devices.

Daikin DKN Plus Interface

The new Daikin DKN Plus Interface (AZAI6WSPDKC) enables the energy-efficient control of Daikin air conditioners by a third-party thermostat or an automation system. With this interface, third party devices or systems

can control the *SkyAir* indoor units through the DKN Cloud NA App via Wi-Fi, Cloud API, Modbus®, BACnet™ MS/TP, or thermostat relay contacts. This interface can be commissioned easily through the DKN Cloud NA app via Bluetooth® Low Energy (BLE). Learn more at www.daikinac.com.

Daikin One+ Smart Thermostat

The Daikin *One+* smart thermostat is now available for *SkyAir* indoor unit models. With the new translation adaptor, connecting the Daikin *One+* smart thermostat provides several user features including remote monitoring, control and geofencing using the Daikin *One* home app, *Google*, and *Amazon* voice assistants. Learn more at www.daikinone.com.

**Note that the optional handheld remote should not be used together with the Daikin *One+* smart thermostat.

FAQ SERIES WALL-MOUNTED HEAT PUMP AND COOLING ONLY INSTALLATION

Ease of installation

Connected by a pair of refrigerant lines, few electrical connections, and no ductwork, indoor and outdoor units can be easily installed in existing spaces with minor disruption and often in a single day's work. The compact and lightweight designs combined with piping lengths up to 164 ft. and minimal wiring allow installation with minimal time and costs.

About Daikin:

Daikin Industries, Ltd. (DIL) is a global Fortune 1000 company and is recognized as one of the largest HVAC (Heating, Ventilation, Air Conditioning) manufacturers in the world. Founded in 1924, Daikin is approaching 100 years of HVAC worldwide leadership. DIL is primarily engaged in developing indoor comfort systems and refrigeration products for residential, commercial, and industrial applications. Its consistent success is derived, in part, from a focus on innovative, energy-efficient, and premium quality indoor climate and comfort management solutions.

Daikin *SplitXpress* Selection Tool

The new interactive *SplitXpress* mobile app and website provide a complete product selection tool to streamline system selection for single and multi-zone projects. Users can create equipment selections and add accessories / pricing details to quickly share quotes with customers. Available for free on the *App Store* (iOS) and *Google Play* (Android), and at <https://splitxpress.daikincity.com>.

WARNINGS:

- » Always use a licensed installer or contractor to install this product. Do not try to install the product yourself. Improper installation can result in water or refrigerant leakage, electrical shock, fire or explosion.
- » Use only those parts and accessories supplied or specified by Daikin. Ask a licensed contractor to install those parts and accessories. Use of unauthorized parts and accessories or improper installation of parts and accessories can result in water or refrigerant leakage, electrical shock, fire or explosion.
- » Read the User's Manual carefully before using this product. The User's Manual provides important safety instructions and warnings. Be sure to follow these instructions and warnings.
- » For any inquiries, contact your local Daikin sales office.
